Undertaking industry-wide initiatives to ensure a happy wedding with a smile and, as soon as possible, give peace of mind to the couple about taking this first step together in new normal life

▲ Providing online guidance

▲ Laying panels on tables to prevent the risk of droplet splashes

▲ Thorough implementation of staff safety management

Starting activities for the prevention of COVID-19 infections and returning to growth in FY2021

Building a sound base for operations following the end of the COVID-19 crisis

IKK's responses to the COVID-19 crisis

(1) Hold down expenses that are not necessary or urgent and review fixed expenses

The remuneration of directors for FY2021 will be reduced as IKK expects that COVID-19 will continue to affect its performance in FY2021. In addition, expenses that are not necessary or urgent will be held down and fixed expenses will be reduced, chiefly by activities of the Purchasing Department, which was established in 2019. The goal is to achieve a suitable cost structure for operations after the COVID-19 crisis ends.

(2) Strengthen IT systems

A separate IT systems department has been established that is supervised by a manager who is Director and more people are assigned to IT systems.

Business flows will be reexamined. Upgrading and increasing the use of these systems gives IKK a platform for business process reforms and innovation after the COVID-19 crisis ends.

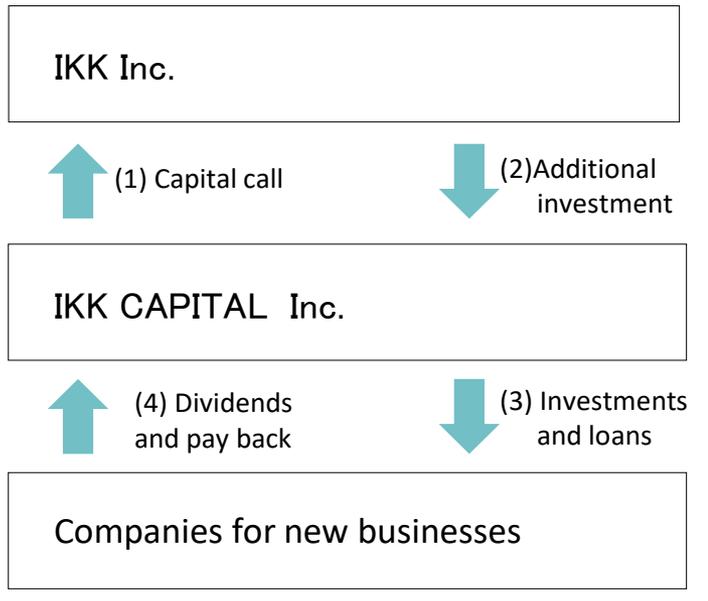

(3) Seek opportunities for new businesses in addition to food

We are collecting information about opportunities for new businesses under the supervision of a director in charge of new business development. IKK is shifting to a holding company structure in May 2021 to create a stronger infrastructure for diversifying business operations and giving people skills and experience to become managers.

Establishment of a financial subsidiary for financial support of new businesses

- IKK is placing priority on speeding up the launch of new businesses and recruiting and training people who can become the presidents of these businesses. IKK CAPITAL will be established for the purpose of creating many people who can be the next generation presidents who operate businesses at the IKK Group.
- IKK CAPITAL will make investments in new group companies and extend loans to these companies, after performing examinations of the soundness of their business models.
